**PUBLIC NOTICE**

**West Ferry Road Repairs – Joint Effort by Heard County Board of  
Commissioners and Georgia Power**

The Heard County Board of Commissioners, in partnership with Georgia Power, is taking immediate steps to address safety concerns on West Ferry Road.

To ensure a long-lasting and safe repair, a geotechnical engineering firm will conduct core sampling of the roadway. This vital step will help determine the proper method for reconstructing the road to meet modern safety and durability standards.

Following the completion of the core sampling, the project will be placed out for bids to begin the necessary repairs.

Work is expected to begin by November 1, 2025 — or sooner, weather permitting.

We appreciate the public's patience and cooperation as we work quickly and responsibly to improve this critical roadway.

Thank you,  
Heard County Board of Commissioners  
Georgia Power
